

LOOK NO FURTHER

+ LYRICS

VERSE 1

I've wasted so much of my love
Chasing after the wind
Always felt like the next thing
Would be the thing
That would fill the craving
Fill the craving

PRE-CHORUS

What did I think I would gain
If I had the whole world
The life I built up is a liar
No matter how hard I try
No it's never enough
There's only one thing that is better

CHORUS

I need to look no further
I've got, I've got everything I need in You
You have my heart forever
I've got, I've got everything I need in You
Look no further

VERSE 2

I know my sights are changing
To see heavenly things
I'm leaning into Your wisdom
With what You've done
I'm not gonna waste it
Not gonna waste it

BRIDGE

I'm looking to You
looking to Your love
looking to You
looking to Your love
looking to You
looking to Your love
